Mateo Alvarez

Data Analyst

mateo.alvarez@example.com | +1 312 555 0102
Chicago, Illinois, United States

PROFESSIONAL SUMMARY

Data analyst with eight years of experience translating retail and service data into useful operating decisions. Strong in SQL, Python, Power BI and experiment design, with a record of reconciling inconsistent source systems and explaining uncertainty to nontechnical stakeholders. Focuses on transparent metric definitions and repeatable analytical workflows.

CORE SKILLS

SQL / Python / Power BI / Excel / pandas / Data visualization / ETL / Statistics / A/B testing / Forecasting / Data quality / Stakeholder communication

PROFESSIONAL EXPERIENCE

Data Analyst | Meridian Basket Analytics

Start	End	Location / engagement
04/2022	Present	Chicago, Illinois / Full-time

- Owned weekly trading dashboards for 42 fictional retail locations, consolidating point-of-sale, returns and staffing data.
- Built incremental SQL transformations and automated quality checks, reducing recurring reconciliation effort by 18 hours per week.
- Designed a promotion holdout study that identified an 8.4% incremental conversion lift with documented confidence intervals.
- Published a metric dictionary covering 65 measures and trained 24 business users on dashboard interpretation.

Business Intelligence Associate | Willowgate Service Group

Start	End	Location / engagement
01/2020	03/2022	Chicago, Illinois / Full-time

- Migrated 19 spreadsheet reports into governed Power BI datasets with row-level access controls.
- Developed a contact-volume forecast that reduced mean absolute percentage error from 23% to 14%.
- Investigated missing identifiers and duplicate transactions, improving monthly reporting completeness to 99.2%.
- Presented monthly performance reviews and documented assumptions rather than treating correlations as causal effects.

Reporting Assistant | Copperleaf Market Research

Start	End	Location / engagement
06/2018	12/2019	Madison, Wisconsin / Full-time

- Cleaned survey exports in Python and Excel and prepared chart packs for twelve recurring client studies.
- Established version-controlled analysis notebooks and a repeatable process for weighting respondent samples.
- Checked charts and narrative findings against source tables before delivery.

Mateo Alvarez

Data Analyst | Qualifications and selected work

EDUCATION

Master of Science in Business Analytics

Fictional Lakefield Graduate School

09/2016 - 05/2018 | Grade: 3.8 / 4.0

Bachelor of Science in Statistics
