## Registered Nurse

sofia.mendes@example.com | +1 303 555 0106
Denver, Colorado, United States

## PROFESSIONAL SUMMARY

Registered nurse with eleven years of experience in adult medical-surgical and ambulatory care settings. Provides attentive patient assessment, medication administration and discharge education within multidisciplinary teams. Known for calm communication, thorough handovers and quality-improvement work focused on safer transitions of care.

## CORE SKILLS

Patient assessment / Medication administration / Electronic health records / Wound care / Care coordination / Patient education / Clinical documentation / Infection prevention / Triage / Discharge planning / Team communication / Quality improvement

## PROFESSIONAL EXPERIENCE

### Registered Nurse | Fictional Meadowlark Medical Center

Apr 2022 - Present | Denver, Colorado | Full-time

- Provided direct care on a 32-bed adult medical-surgical unit, typically coordinating care for four to five patients per shift.
- Performed assessments, administered prescribed medications and escalated changes in condition using structured communication.
- Improved discharge-teaching documentation completion from 82% to 96% through a bedside checklist pilot.
- Served as preceptor for six newly hired nurses and supported supervised skills validation.

### Staff Nurse | Fictional Aspenreach Community Hospital

Jul 2018 - Mar 2022 | Denver, Colorado | Full-time

- Supported postoperative recovery, wound care and symptom monitoring in a multidisciplinary ward team.
- Participated in handover audits and helped reduce missing critical handoff elements by 37%.
- Coordinated with pharmacy and case management to resolve medication-access barriers before discharge.
- Maintained accurate EHR documentation and participated in unit-based infection-prevention reviews.

### Graduate Nurse | Fictional Sunridge Care Network

Aug 2015 - Jun 2018 | Colorado Springs, Colorado | Full-time

- Completed a supervised transition-to-practice program with rotations in medical, surgical and outpatient units.
- Assisted with admission assessments, patient education and discharge follow-up under unit protocols.
- Contributed to a mobility-rounds initiative and documented participation for quality review.

Registered Nurse | Qualifications and selected work

## EDUCATION

### Bachelor of Science in Nursing

Fictional Clearhaven College of Nursing

Aug 2011 - May 2015 | Grade: 3.7 / 4.0

## PROJECTS

### Discharge Teach-Back Pilot

Nurse champion | Mar 2023 - Dec 2023

Introduced a structured teach-back checklist for medication changes and follow-up appointments. Audited 120 synthetic case records and improved completion by 14 percentage points.

Methods / tools: Patient education, Quality improvement

https://projects.example.com/sofia-mendes/project-1

### Handover Reliability Review

Ward representative | Jun 2020 - Mar 2021

Reviewed handover templates and facilitated short training sessions across day and night shifts; reduced omissions of escalation plans.

Methods / tools: Clinical documentation, Team communication

## MEDICATION UNDERSTANDING AT DISCHARGE

Case study | Feb 2024

### Actions and approach

Partnered with pharmacy to create plain-language medication-change cards and a nursing teach-back script. Collected anonymous staff feedback and audited completion in a small quality-improvement sample.

### Measured outcome

Raised documented teach-back completion from 76% to 94%; shared findings at a unit education meeting without including identifiable patient information.

## NEW NURSE PRECEPTOR SUPPORT

Case study | Jun 2025

### Actions and approach

Created weekly reflection prompts, structured feedback notes and a sign-off tracker for a supervised onboarding pathway. Coordinated with the nurse educator to maintain consistent assessment expectations.

### Measured outcome

All six participants completed the pathway on schedule, and orientation feedback improved from 4.0 to 4.6 out of 5.

## PROFESSIONAL CONTRIBUTIONS

- Member of the fictional hospital Patient Education Working Group since 2023.
- Completed 36 hours of documented professional development in 2025.

## PROFESSIONAL FOCUS

Current practice priorities: Triage, Discharge planning, Team communication, Quality improvement. Examples above reflect work completed with the listed employers and are included to show practical scope and methods.
