Phoenix, Arizona, United States

PROFESSIONAL SUMMARY

Operations manager with eleven years of experience coordinating high-volume service and distribution teams. Builds practical operating routines around safety, staffing, quality and customer commitments. Skilled in capacity planning, process improvement and coaching supervisors through measurable day-to-day execution.

CORE SKILLS

Operations management / Capacity planning / Lean improvement / Workforce scheduling / KPI reporting / Inventory control / Vendor management / Quality assurance / Excel / Process mapping / Budget management / Supervisor coaching

PROFESSIONAL EXPERIENCE

Operations Manager | Mesafern Distribution Services

Apr 2022 - Present | Phoenix, Arizona | Full-time

- Managed a 96-person distribution operation processing an average of 11,500 order lines per day.
- Introduced daily capacity reviews and workload balancing, improving on-time dispatch from 91% to 98%.
- Reduced picking errors by 27% through location labeling, targeted refresher training and quality sampling.
- Owned a $6.4 million operating budget and delivered a 7% controllable-cost reduction during volume growth.

Operations Supervisor | Coppermesa Service Logistics

Jul 2018 - Mar 2022 | Phoenix, Arizona | Full-time

- Supervised three shift leads and 42 associates across receiving, picking and dispatch.
- Built staffing plans that reduced overtime hours by 18% while maintaining customer delivery commitments.
- Investigated recurring bottlenecks and implemented standard work for returns processing.
- Maintained safety observation routines and ensured corrective actions had named owners and due dates.

Operations Coordinator | Sunquay Fulfillment Group

Aug 2015 - Jun 2018 | Tucson, Arizona | Full-time

- Coordinated daily inbound schedules, stock adjustments and customer exception follow-up.
- Maintained shift performance reports and reconciled discrepancies between physical and system inventory.
- Supported team training and documented escalation paths for urgent orders.

Operations Manager | Qualifications and selected work

EDUCATION

Bachelor of Business Administration in Operations Management

Fictional Desert Birch University

Aug 2011 - May 2015 | Grade: 3.5 / 4.0

PROJECTS

Peak Season Capacity Model

Operations lead | May 2023 - Nov 2023

Modeled staffing and equipment needs for a 35% seasonal volume uplift, then validated assumptions against daily throughput and backlog data.

Methods / tools: Capacity planning, Excel

https://projects.example.com/victor-petrov/project-1

Returns Flow Improvement

Supervisor | Jan 2020 - Oct 2020

Mapped returns handoffs and introduced dedicated triage lanes, shortening average return disposition time from six days to three.

Methods / tools: Lean improvement, Process mapping

Victor Petrov

Operations Manager | Leadership and practice

DISPATCH RELIABILITY RECOVERY

Case study | Apr 2024

Actions and approach

Observed handoffs across two shifts and separated transport delays from internal processing delays. Introduced a cut-off dashboard, staged departure lanes and an escalation owner for late replenishment.

Measured outcome

Improved on-time dispatch by seven percentage points within twelve weeks and reduced end-of-shift unfinished orders by 38%.

FRONTLINE IMPROVEMENT FORUM

Case study | May 2025

Actions and approach

Created a monthly forum where associates could propose changes and test small improvements. Used a one-page experiment record with a baseline, safety review and measurable success condition.

Measured outcome

Implemented 16 staff suggestions, recovering an estimated 620 work hours annually and increasing participation from 12 to 43 employees.

PROFESSIONAL CONTRIBUTIONS

- Run monthly supervisor coaching sessions focused on problem solving and fair workload allocation.
- Recognized for dependable peak-season planning by fictional Mesafern leadership in 2025.

PROFESSIONAL FOCUS

Current practice priorities: Excel, Process mapping, Budget management, Supervisor coaching. Examples above reflect work completed with the listed employers and are included to show practical scope and methods.
