PROFESSIONAL SUMMARY

Product manager with eight years of experience developing B2B workflow and reporting products. Connects customer discovery, business priorities and technical constraints into clear product decisions. Experienced in outcome-based roadmaps, release planning and aligning stakeholders around measurable adoption and retention goals.

PROFESSIONAL EXPERIENCE

Product Manager | Quillbridge Workflow Products

Apr 2022 - Present | New York, New York | Full-time

- Owned strategy and delivery for a reporting product with 320 fictional business accounts.
- Established an outcome-based roadmap and quarterly discovery cadence across sales, support and engineering.
- Launched a self-service report builder that increased weekly active account usage by 24%.
- Defined activation metrics and revised onboarding, improving first-month feature adoption from 39% to 58%.

Associate Product Manager | Hearthline Digital Platforms

Jan 2020 - Mar 2022 | New York, New York | Full-time

- Managed backlog refinement and delivery coordination for account settings and billing workflows.
- Interviewed customers, reviewed support themes and used SQL to investigate friction in onboarding funnels.
- Developed release-readiness checklists and training notes for customer-facing teams.
- Supported pricing research and packaging experiments with clearly documented assumptions.

Business Analyst | Northpetal Consulting

Jun 2018 - Dec 2019 | Newark, New Jersey | Full-time

- Mapped service workflows and translated business requirements into acceptance criteria.
- Facilitated workshops with operations users and engineering teams.
- Prepared process diagrams and verified that delivered features addressed the agreed requirements.

Grace O'Connell

Product Manager | Qualifications and selected work

EDUCATION

Bachelor of Arts in Economics

Fictional Hudson Elm College

Sep 2014 - May 2018 | Grade: 3.8 / 4.0

PROJECTS

Self-Service Reporting Launch

Product owner | Jan 2023 - Dec 2023

Validated report-building needs through 22 customer interviews and a staged beta. Coordinated instrumentation, enablement and success criteria before general release.

Methods / tools: Product strategy, SQL, Analytics

https://projects.example.com/grace-oconnell/project-1

Onboarding Friction Review

Product analyst | Apr 2021 - Oct 2021

Combined funnel analysis and interview themes to prioritize three onboarding improvements; shortened median time to first completed workflow by 29%.

Methods / tools: Customer discovery, Experiment design
