Mei-Ling Tan

Supply Chain Analyst

mei.ling.tan@example.com | +1 214 555 0115
Dallas, Texas, United States

PROFESSIONAL SUMMARY

Supply chain analyst with eight years of experience in inventory planning, supplier performance and demand reporting. Turns operational data into practical purchasing and replenishment decisions. Strong in Excel, SQL and cross-functional communication, with an emphasis on service levels, data quality and transparent planning assumptions.

CORE SKILLS

Demand planning / Inventory analysis / Supplier performance / SQL / Excel / Power BI / ERP / Forecasting / Safety stock / Purchase planning / Data quality / Process improvement

PROFESSIONAL EXPERIENCE

Supply Chain Analyst | Prairiewick Distribution Group

Start	End	Location / engagement
04/2022	Present	Dallas, Texas / Full-time

- Analyzed demand and inventory for 3,600 active SKUs across four regional warehouses.
- Revised safety-stock rules by demand variability and supplier lead time, reducing stockouts by 19%.
- Created supplier scorecards covering delivery reliability, quality issues and lead-time variation.
- Reduced excess stock value by $420,000 through structured slow-moving inventory reviews and replenishment changes.

Inventory Planner | Willowspan Consumer Goods

Start	End	Location / engagement
01/2020	03/2022	Dallas, Texas / Full-time

- Prepared monthly purchasing recommendations and reconciled forecast changes with sales and operations.
- Introduced exception reports for negative inventory, missing lead times and duplicate item records.
- Improved inventory record accuracy from 94.5% to 98.1% through targeted cycle-count analysis.
- Supported launch planning for 52 new products and tracked first-quarter forecast bias.

Logistics Coordinator | Elmtrail Freight Services

Start	End	Location / engagement
06/2018	12/2019	Fort Worth, Texas / Full-time

- Scheduled shipments, tracked delivery exceptions and maintained shipment cost records.
- Reconciled freight invoices against rate agreements and documented disputed charges.
- Prepared weekly service-level summaries for operations reviews.

Mei-Ling Tan
